

SITE REGISTRATION TOOL

Quick guide for visitors

OneSecurity

Site Registration Tool

Some basic information:

- A person, who needs to have physical access to UPM production unit, will make an application well in advance via Site Registration Tool (ULP)
 - Contractors
 - Visitors
 - Employees from other companies working at the site
- Every person and vehicle need to be specified. Therefore it is important clearly state the reasons for access right request
- Every site has nominated contact persons who are authorized to approve or reject access requests. If the application has a request for vehicle, the request need to be considered carefully
